6. Oral habit breaking appliances

1 Case

### Oral Pathology and Microbiology

The interns shall perform the following:

- |   |         |
|---|---------|
| 1. History-recording and clinical examination | 5 Cases |
| 2. Blood, Urine and Sputum examination        | 5 Cases |
| 3. Exfoliative Cytology and smears study      | 2 Cases |
| 4. Biopsy- Laboratory Procedure & reporting   | 1 Case  |

### Orthodontics

- A. The interns shall observe the following procedures during their posting in Orthodontics:

1. Detailed diagnostic procedures for 5 patients
2. Laboratory techniques including wire-bending for removable appliances, soldering and processing of myo-functional appliances.
3. Treatment planning options and decisions.
4. Making of bands, bonding procedures and wire insertions.
5. Use of extra oral anchorage and observation of force values.
6. Retainers.
7. Observe handling of patients with oral habits causing malocclusions.

The dental graduates shall do the following laboratory work:-

- |  |           |
|--|-----------|
| 1. Wire bending for removable appliances and space maintainers including welding and heat treatment procedure. | - 5 Cases |
| 2. Soldering exercises, banding & bonding procedures   | - 2 Cases |
| 3. Cold-cure and heat-cure acrylisation of simple Orthodontic appliances                                       | - 5 Cases |

### 9. Public Health Dentistry

1. The interns shall conduct health education sessions for individuals and groups on oral health public health nutrition, behavioral sciences, environmental health, preventive dentistry and epidemiology.
2. They shall conduct a short term epidemiological survey in the community, or in the alternate, participate in the planning and methodology.
3. They shall arrange effective demonstrations of:
 

|  |         |
|--|---------|
| a) Preventive and interceptive procedures for prevalent dental diseases. |         |
| b) Mouth-rinsing and other oral hygiene demonstrations                   | 5 Cases |
| c) Tooth brushing techniques   | 5 Cases |
4. Conduction of oral health education programmes at
 

|                               |   |
|-------------------------------|---|
| A) School setting             | 2 |
| B) Community setting          | 2 |
| C) Adult education programmes | 2 |
5. Preparation of Health Education materials 5
6. Exposure to team concept and National Health Care systems:
  - a) Observation of functioning of health infrastructure.
  - b) Observation of functioning of health care team including multipurpose workers male and female, health educators and other workers.
  - c) Observation of atleast one National Health Programme:-
  - d) Observation of interlinkages of delivery of oral health care with Primary Health care.

Mobile dental clinics, as and when available, should be provided for this teachings.

### 10 Elective Posting

The Interns shall be posted for 15 days in any of the dental departments of their choice mentioned in the foregoing.

### Organisation of content:

The Curriculum during the 4 years of BDS training is subject based with more emphasis on learning practical skills. During one year internship the emphasis will be on competency-based, community oriented training. The practical skills to be mastered by the interns along with the minimum performance level are given under the course content of different departments of Dental Education. The supervisors should seeing it that proper facilities are provided in all departments and attached institutions for their performance.

### Specification of teaching activities:

Didactic lectures are delivered during the four years training in BDS. These shall be voided during the internship programme. Emphasis shall be on chair-side teaching, small group teaching and discussions tutorials, seminars, ward posting, laboratory posting, field visits and self learning.

### Use of Resource Materials:

Overhead projectors, slide projectors, film projectors, charts, diagrams, photographs, posters, specimens, models and other audiovisual aids shall be provided in all the Dental Colleges and attached institutions and field area. If possible, television, video and tapes showing different procedures and techniques to be mastered by the interns should be provided.

## Evaluation

### 1. Formative Evaluation:

Day-to-day assessment of the interns during their internship posting should be done. The objective is that all the interns must acquire necessary minimum skills required for carrying out day-to-day professional work competently. This can be achieved by maintaining records and performance data book by all interns. This will not only provide a demonstrable evidence; of the processes of training but more importantly, of the interns own acquisition of competencies as related to performance. It shall form a part of formative evaluation and shall also constitute a component of final grading of interns.

### 2. Summative Evaluation:

It shall be based on the observation of the supervious of different departments and the records and performance data book maintained by the interns. Grading shall be done accordingly.

## 11. Rural Services

In the rural services, the student will have to participate in-

1. Community Health Monitoring programmes and services which include Preventive, Diagnostic and corrective procedures
